

# The ultimate multi metal system protection including aluminium.

We at Sentinel® are proud to offer our **Multi Metal System Protection** to the nation's installers.

Sentinel® X100 with unique TripleTech™ Anti Corrosion Technology is proven to **easily outperform** two other brand and own brand inhibitors in the **protection of aluminium** in central heating systems. Plus it's made right here in the UK.

So if you want to provide the ultimate protection and performance: **be secure, choose Sentinel®**
